Our Popular Items

Domestic Wood Chippers & Mulchers

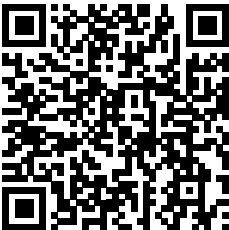

Enhanced Anti-Blocking System (Rotatable Hopper and Exit Chute)

Adjust their position to maintain smooth material flow, reducing blockages and keeping you chipping without interruptions.

Simplify Your Garden Maintenance

Our domestic wood chippers handle branches up to 50mm (2 inches) with ease, featuring durable reversible steel blades and a direct drive system for efficiency. Their compact design ensures easy storage and manoeuvrability, making garden upkeep effortless.

Whether you're clearing seasonal debris or managing regular upkeep, our wood chippers are designed to make the task straightforward and efficient.

Professional Wood Chippers & Mulchers

Enhance Your Landscaping

Our professional wood chippers are built for the demands of commercial landscaping and forestry work. They handle larger branches with ease, featuring robust direct drive systems and high-torque engines for reliable performance.

A mulcher kit can be fitted to process green and garden waste, adding versatility to the job. Designed for durability and straightforward maintenance, these chippers are essential for professionals who need efficiency and dependability.

Hydraulic Log Splitters

Our hydraulic log splitters range from 5 to 22 tons, handling everything from small logs to heavy-duty splitting. The FM10 and FM16 feature our unique DuoCut™ blade for increased efficiency, while the X4 and 8VE models can be fitted with a 4-way cutting blade for faster processing. Built for reliability and ease of use, they make log splitting effortless.

Whether you're preparing firewood for the winter, or managing large-scale wood processing projects, our hydraulic log splitters are designed to make the task straightforward and efficient.

FM5, 8, 10, 16 & X4-PRO Log
splitters can also be purchased
with a stand for easier splitting
& easy movement.

All-terrain stands now available!

Kinetic Log Splitters

Our kinetic log splitters deliver exceptional speed and efficiency for your wood processing needs. With an impressive 3-second cycle time, these machines significantly reduce the time and effort required for splitting logs.

The 8-ton electric model operates on standard domestic mains power, offering convenience and ease of use. For greater mobility, the 8-ton petrol variant is equipped with a reliable Honda engine, ensuring robust performance in various settings.

Manual Log Splitters

Our manual log splitters offer efficient, fuel-free solutions for processing firewood. The FMSS model provides a safe, easy-to-use alternative to traditional axes, featuring a drop weight design that delivers controlled, effective splitting. For kindling needs, the FM9LS offers precision and safety, allowing for effortless preparation of smaller wood pieces. Both models are lightweight and easy to store, making them ideal for home users seeking a simple, low-maintenance way to prepare firewood.

Note: for our manual log splitters you will need a sturdy base to secure the item. We recommend using a suitable log stump or similar.

Compact Folding Hand Truck
ZFHT-90 / ZFHT-160

Zero High Lift Pallet Truck

Lift loads up to 200kg with ease using the spring-loaded bottle jack and hydraulic foot pump.

Adjustable forks raise items up to 92cm, perfect for heavy appliances, kegs, and confined spaces where forklifts can't go. Compact and ideal for home or light industrial use.

Zero Gas Cylinder Hand Truck

Built to handle up to 150kg, this heavy-duty trolley keeps cylinders upright and secure.

With puncture-proof wheels and a rugged frame, it's designed for safe, stable movement in demanding environments.

Zero Compact Folding Hand Truck

Lightweight yet strong, with a telescopic handle and high-strength frame. Folds flat for easy storage and is ready to go straight out of the box.

Ideal for quick transport tasks where space is tight.

A word from our customers

“

“I am a lady on her own using this for my domestic use only, but endeavouring to become more self sufficient. Your product gave me confidence I could use it myself, so I decided to purchase your wood splitter.”

Mary Connelly
Customer, Age 75

FM10

“

The FM6DD has quickly become one of my absolute essentials. Having such a portable yet powerful chipper to move around the garden allows me to quickly process prunings and create large volumes of woodchips to use for pathways, composting, and mulching. I regret not getting one sooner!

Huw Richards

EVE
EV-CHARGE-KIT.COM

Compact. Reliable. Efficient.

Adjustable chargers for type 2 EV's

Portable EV chargers offer flexible and efficient charging solutions for electric vehicle owners.

The LITE10 Series provides a fixed 10A current for straightforward, plug-and-play charging. For those seeking adjustable options, the MAX32 Series allows current settings between 6A and 32A, featuring smart connectivity for enhanced control. Both models are weatherproof and designed for durability, ensuring reliable performance in various conditions.

The Stove Fan Company offers a range of products designed to enhance your stove experience. Their heat-powered stove fans efficiently circulate warm air, improving heating efficiency without the need for external power.

Additionally, they provide eco-friendly firelighters for clean ignition; essential accessories such as thermometers and air quality monitors for optimal stove performance, and fragrances to add a pleasant aroma to your living space.
